Ohm's Trainer Worksheet

Student: _____

Ohm's Trainer Box Number (check one): ___ V1 ___V2 ___V3 ___V4 ___V5 **(located on rear left corner)**

DIRECTIONS: The trainer box consists of 20 pin connections A1 through A5, B1 through B5, C1 through C5, and D1 through D5. Inside this box there is at least 1 good diode, several resistors, straight through connectors, multiple connection points, and dead ends. Your challenge is to use an ohmmeter to determine what is connected to what. Mark your results on the chart below:

Note: You will need to use the diode function on your ohmmeter to find the diode in this trainer.

A1 _____ **C1** _____

A2 _____ **C2** _____

A3 _____ **C3** _____

A4 _____ **C4** _____

A5 _____ **C5** _____

B1 _____ **D1** _____

B2 _____ **D2** _____

B3 _____ **D3** _____

B4 _____ **D4** _____

B5 _____ **D5** _____
